

MADE FOR UTAH · FIELD NOTE 25

# Map the clean before the gathering.

A gathering creates predictable traffic: the entry, bathroom, kitchen, and seating area. Plan those zones around food preparation and arrival time so work does not have to be repeated.

## YOUR KIT

Zone list; surface-appropriate kit; clean towels; waste supplies

THE GUEST ROUTE IS YOUR PRIORITY LIST. · EDITORIAL PHOTOGRAPHY

# Three deliberate steps.

## 01 Work backward from arrival

Identify the spaces guests will use. Finish slower drying tasks early and leave the final floor pass until cooking and setup are mostly complete.

## 02 Clean and stock the route

Reset the bathroom, clear entry clutter, and prepare the seating area. Keep food-preparation surfaces separate from the rest of the cleaning kit.

## 03 Do the last walkthrough

Check lighting, dry floors, towels, soap, paper, bins, and a place for coats. Leave one small cleanup kit ready for the event.

## The final check.

- ☐ Guest route clear
- ☐ Bathroom stocked
- ☐ Final floors dry before arrival

### Know when to pause.

Do not let a timed hosting reset rush food safety or leave wet floors in a busy doorway.

## Clean for how the gathering will flow.

Always follow the surface maker's care instructions and product label. Never mix cleaning products. This guide is for ordinary household care, not hazardous-material remediation. Product-specific instructions take priority.
