
A CALMER HOME · FIELD NOTE 11

The pet-hair route that makes sense.

Pet hair collects along edges, on textiles, and under furniture. Give it a route out of the room instead of moving it from one surface to another.

YOUR KIT

Textile-safe hair tool; suitable vacuum attachment; washable cloths

THE SOFA IS NOT THE STARTING LINE. · EDITORIAL PHOTOGRAPHY

Three deliberate steps.

01 Start with the soft surfaces

Check fabric instructions, then lift hair from throws and cushions with a suitable tool. Launder removable pieces only as labeled.

02 Follow the edges

Vacuum furniture creases, room edges, and reachable areas under furniture using the correct attachment. Avoid tugging cords or moving unsafe loads.

03 Finish with the open floor

Vacuum the remaining floor last. Empty and maintain the machine as its manual directs, away from the freshly cleaned area.

The final check.

- ☐ Sofa seams inspected
- ☐ Floor edges checked
- ☐ Vacuum maintained for the next use

Know when to pause.

Keep animals away from cleaning products and wet surfaces according to labels. Never promise a product is safe for every pet.

Work from the fabric to the floor.

Always follow the surface maker's care instructions and product label. Never mix cleaning products. This guide is for ordinary household care, not hazardous-material remediation. Product-specific instructions take priority.
